

Mardin

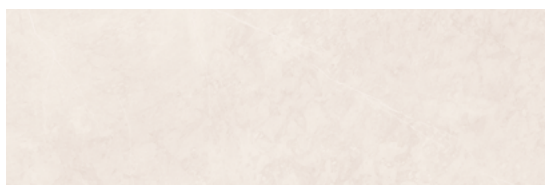

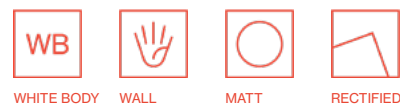

Inspirada en las construcciones de Mardin, ciudad multicultural del sur de Turquía, de gran riqueza arquitectónica. Construcciones que abrazan el cielo, elaboradas con piedras de las canteras de la zona. Mardin es una piedra suave, con vetas sutiles, un relieve delicado y natural con una textura sedosa. Colores suaves y decorados orgánicos, danzan en armonía, como un poema pintado por la naturaleza.

Inspired by the architecturally rich, multicultural city of Mardin in southern Turkey. Sky-hugging constructions made of stone from local quarries. Mardin is a soft stone, with subtle veins, a delicate and natural relief with a silky texture. Soft colours and organic decorations dance in harmony, like a poem painted by nature.

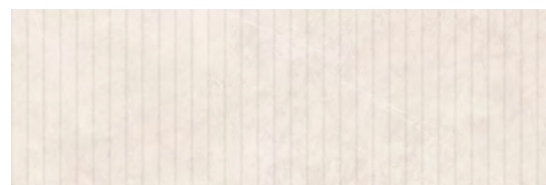

Inspiré par la ville multiculturelle et riche en architecture de Mardin, dans le sud de la Turquie. Des constructions qui s'élancent vers le ciel, réalisées en pierre provenant des carrières locales. Mardin est une pierre douce, aux veines subtiles, au relief délicat et naturel, à la texture soyeuse. Les couleurs douces et les décorations organiques dansent en harmonie, comme un poème peint par la nature.

Inspiziert von der architektonisch reichen, multikulturellen Stadt Mardin im Süden der Türkei. Himmelhohe Konstruktionen aus Stein aus den örtlichen Steinbrüchen. Mardin ist ein weicher Stein mit subtilen Adern, einem zarten und natürlichen Relief mit einer seidigen Textur. Sanfte Farben und organische Verzierungen tanzen in Harmonie, wie ein von der Natur gemaltes Gedicht.
